

NURSING EDUCATION, GRADUATE CERTIFICATE

By completing the Graduate Certificate in Nursing Education, the student will gain knowledge and skills in the areas of educational theory, instructional methods, assessment and evaluation of learning and curriculum development. The nationwide shortage of qualified nursing faculty is a growing concern for the profession; the theoretical knowledge provided in the Graduate Certificate in Nursing Education program helps to prepare a registered nurse with a master's degree in nursing to move into nursing education in a faculty role.

The Graduate Certificate in Nursing Education program allows nurses to maintain their roles in education if they are currently working in a clinical or classroom instructor role or advance their roles should they want to change career paths. Students have the option of completing only the theory courses for the Nurse Educator Specialty Track. National certification exams are available to graduates in select specialties. For more information about national certification in nursing education, visit nln.org/certification.

Program Details

Graduate Certificate in Nursing Education: With or Without Practicum

Certificate: Graduate Certificate in Nursing Education
Semesters:

- 3 Full Time With Practicum (18 credit hours)
