ARTIFICIAL INTELLIGENCE STATEMENT

Chamberlain University is committed to students' competency in the use of artificial intelligence (AI), recognizing the transformative potential of AI in enhancing learning and practice/career readiness. At Chamberlain University, AI may be used as a supplement, not a substitute for students' own critical thinking and effort. Students are accountable for the accuracy and integrity of their coursework, understanding that AI must be used ethically and responsibly. Students must also be cognizant of not inputting personal, confidential, or sensitive information into AI tools to protect privacy and security. Students must adhere to all Chamberlain University's policies, student code of conduct, program and course specific guidelines in use of AI. Failure to do so may result in a code of conduct violation.
