

REQUEST FOR PROGRESSION REQUIREMENT EXTENSION

Students faced with extenuating circumstances where they are not able to submit their official documentation and/or cleared screenings by the end of their first semester may request a progression requirement extension. If approved, satisfaction of the progression extension must be resolved by the end of the student's next semester. The decision of the Chamberlain administrator or designee is final with no opportunity to appeal. Students who fail to satisfy missing progression items after the additional semester deadline will be prevented from progressing with a hold on their account. The request must be submitted to Chamberlain and approved by the Monday prior to the initial progression deadline. (see the academic calendar)
