SIREN

SIREN is a system that keeps you informed about campus emergencies. You will be informed via cell phone and/or email. Emergencies can be related to weather, power outages, lock downs or closures.

To register for SIREN, visit My Chamberlain at **community.chamberlain.edu** and navigate to the **Support** page. Scroll down the page and select the "**Update SIREN Preferences**" button on the right. Complete your SIREN registration by the first week of class. It is important to remember to update your siren registration whenever your personal information is updated.
