

VEHICLE REGISTRATION

Many Chamberlain locations require student vehicles to be registered with the University and display a parking permit. Parking permits are to be securely affixed and clearly displayed on the rear window or rear bumper where they are easily visible. If a student needs to drive an unregistered vehicle to campus, temporary parking permits are available from the Student Support office. Temporary permits are valid for up to five days and limit parking to designated areas only. Temporary permits should be hung from the rear-view mirror and returned to the Student Support office upon expiration.
