

DECELERATION - MPAS

The MPAS curriculum is designed to be completed on a full-time basis. Due to its curriculum design and academic intensity, Chamberlain's MPAS degree program does not offer part-time or deceleration options to students. All MPAS students must take the full required course load each session and they must take the courses in the order in which they are offered during the session and the program.

When a student's progression is interrupted, they may be subject to the Leave of Absence Policy, Resumption of Studies Policy, Re-Entry Policy and/or Appeal of Academic Dismissal Policy.
