

SIREN

SIREN is a system that keeps you informed about campus emergencies. You will be informed via cell phone and/or email. Emergencies can be related to weather, power outages, lock downs or closures.

To register for SIREN, visit My Chamberlain at community.chamberlain.edu and navigate to the **Support** page. Scroll down the page and select the "**Update SIREN Preferences**" button on the right. Complete updates to your SIREN Preferences by the first week of class. It is important to remember to update your SIREN registration whenever your personal information is updated.
